CFA Tanks

Protect your assets and fulfil CFA requirements with a fire-resistant Colorbond tank. Available in colour or galvanised, these can be custom made to suit your new house or development.

CFA Tank benefits include:

- Achieve Bushfire Management Overlay (BMO) conditions
- 'Non combustible' steel as required for BMO
- Available in any size tank
- Can be combined with residential water storage for space and cost effectiveness
- Compliant CFA kits and additional accessories supplied as specified
- Can be combined with Waterline AquaSwitch system for toilet flushing
