

Slimline Tanks

Our slimline tank range offers you a sleek, modern design to suit any application.

The modern slimline shape tank is designed with smaller properties and limited space in mind. We use Colorbond Aquaplate steel reinforced with internal stainless steel bracing to deliver a peace-of-mind product. Customisable tank dimensions means we can make a slimline tank to suit almost any project – whether commercial, domestic or industrial. That includes basement carparks, under a staircase or in a tight space on the boundary of your property.

Our range of slimline tanks are available in the traditional round end style, or the modern square-end rectangular style. Waterline Squared tanks allow for large bore connections on all sides of the tank giving flexibility in system design where banks of these are coupled together. This gives a high capacity of storage within a very narrow footprint.

1000 Litre Options

		Length	Width	Height
1000 Litres	SL1005A	1.45	0.55	1.57
1000 Litres	SL1005B	1.20	0.55	1.87
